

## Service Contract

st consulting with its headquarter in Herdecke City, Germany, appreciates your interest to involve its experienced team and competent networks in your project. Our network consists of tax consultants, lawyers, accountants, banks and financial services companies with many years of extensive experience with international business partners. We will intensively target us to create a tailor-fit-solution for your inquiry once we accept your project.

To ensure a fast and effective transaction to execute your project successfully, it is necessary to follow below procedures:

- Please describe your project (for example, equipment, services, etc.) as detailed as possible. Each detail helps us by choosing the right partner and will bring us faster together.
- You give us a written mandate:
  - A. Base - Mandate:
    - with this mandate, you agree that we collect information on your behalf in connection with the project and can make communications. With this base mandate - we are not authorized to award any contracts on your behalf.
  - B. Main - Mandate:
    - This mandate authorizes us to perform on your behalf and arrange all related communications and make them ready for completion of the project. The completion includes all necessary contracts to execute it successfully. Of course, we will inform you before completion of any contract for your permission.

Our remuneration is based upon the effort and the project's type. By simple procurement projects we are paid mainly from success-related commissions. We will discuss with you about our remuneration and set it down in writing, before giving us any mandate.

By larger projects, including business-continuity-planning and procurement, we get paid a lump sum, as well as success-related commissions. We will discuss with you about our remuneration and set it down in writing, before giving us any mandate.

Please note that independently from the type of the projects, a start-up honorarium must be paid in advance.

Please note that without any signed mandate's contract and the payment of the start-up-honorarium, we won't do any action regarding your projects.
